About Me

I'm **Dhruv Ramdas Yadav**, an 18-year-old aspiring **Web Developer** and **Computer Science student** passionate about building creative, efficient, and user-friendly digital solutions.
Currently pursuing a **Bachelor of Science in Computer Science** at the **University of the People**, I focus on blending **technical problem-solving** with **aesthetic design** to deliver clean, responsive websites.

Beyond web development, I'm deeply interested in **global business and technology integration**, especially how innovation can support industries like **logistics, exports, and e-commerce**.
I've previously explored this through projects like **A To Z Exports**, where I learned the fundamentals of product presentation, international communication, and digital branding.

I'm also exploring **global internship opportunities**, particularly in **Japan**, to gain real-world experience, cultural insight, and contribute to meaningful projects in a diverse environment.
My goal is to keep learning, stay curious, and grow into a professional who combines **technical expertise, global awareness, and entrepreneurial thinking**.

Skills

- **Web Technologies:** HTML, CSS, JavaScript, WordPress

- **Programming:** Python, Java, Kotlin, Go

- **Design Tools:** Figma, Canva

- **Office & Data:** Microsoft Office, Excel, Data Entry

- **Soft Skills:** Communication, Time Management, Teamwork

Education

- **BS in Computer Science** — *University of the People* (Ongoing)

- **BA English Honours** — *IGNOU*

- **Senior Secondary & Secondary** — *NIOS*

Experience

A To Z Exports — *Export Manager (Intern Role Simulation)*

Jan 2024 – Present | Pune, India
- Handled product catalog design and digital marketing strategy for international spice exports.
- Communicated with global buyers and Indian embassies to understand trade documentation and compliance.
- Developed promotional materials and managed data entries for export logistics.
- Gained insights into sustainable trade and cross-border business operations.

YogAmrut Mushrooms — *Web Designer & Branding Assistant*

Aug 2023 – Dec 2023 | Pune, India
- Designed the company's website layout and optimized it for desktop and mobile.
- Created brand identity elements — logo, tagline, and brochure — using Canva and Figma.
- Assisted in setting up social media pages and developing digital marketing visuals.
- Contributed to improving brand visibility and online presence.

Freelance Web Developer — *Personal & Client Projects*

Jan 2023 – Present | Remote
- Built and maintained portfolio websites for individuals and small businesses using **HTML, CSS, and JavaScript**.
- Worked with **WordPress** for dynamic site creation and content management.
- Focused on responsive design, SEO-friendly structure, and clean UI/UX principles.
- Collaborated remotely with clients to deliver creative digital solutions on time.

Global Internship Exploration (Virtual)

Ongoing
- Participating in online global internship simulations (e.g., **J.P. Morgan Chase Software Engineering Simulation**).
- Enhancing skills in web development, problem-solving, and cross-cultural collaboration.
- Preparing for internship placements in **Japan** and other international environments.

Certifications

- **Software Engineering Job Simulation** — J.P. Morgan Chase & Co.

- **Web Development Bootcamp** — Apna College

- **Digital Skills: Web Design** — Google Digital Garage

Projects

A To Z Exports

A clean, responsive company website showcasing agricultural export services and product portfolio.
HTML, CSS, JavaScript
View Project

Portfolio Website

A personal portfolio highlighting my education, skills, and global interests — built from scratch and hosted via GitHub Pages.
HTML, CSS, JavaScript
View Live

DMIT Desktop Software (Concept Project)

A proposed **offline desktop software** for DMIT analysis, designed to simplify biometric testing and report generation for counselors.
Python (Tkinter), SQLite
Focus: User-friendly interface, data visualization, local storage.

EVolve Logistics (Startup Concept)

A conceptual brand focusing on **eco-friendly logistics** using electric vehicles — aimed at building sustainable delivery solutions.
Figma, Canva (UI/UX & Branding)
Focus: Sustainability, green business model, digital presence.

YogAmrut Mushrooms Website

A modern website designed for an organic mushroom cultivation brand — includes product gallery, brand story, and "Grow Well, Eat Pure, Live Strong" tagline integration.
WordPress, HTML, CSS
Focus: Branding, UI Design, SEO optimization.

Data Entry Automation Tool

Developed a Python script that converts Excel sheets into formatted reports automatically.
Python (Pandas, OpenPyXL)
Focus: Reducing manual work, improving data accuracy.
